B.E (CSE) with 7.5 (upto 6th semester)
Kings College of Engineering,Punalkulam
2021-2025

HSC - State board with 81%
St.Marcinas Matric higher secondary school, Thanjavur.
2021

SSLC - State board with 72%
St.Marcinas Matric higher secondary school, Thanjavur.
2019

PROJECT EXPERIENCE

Restaurant Billing System Application Using Python Tkinter

- Developed a restaurant billing system application using Python and Tkinter for efficient order management and billing.
- Designed the system to be scalable, accommodating the specific needs of different restaurant types.
- Facilitated both waiter and manager operations, improving overall restaurant efficiency.

Email Sending Application Using Python

- Created a Python-based email sending application allowing users to send emails to multiple recipients across platforms like Gmail, Yahoo Mail, and Outlook.
- Designed a user-friendly interface for easy composition and attachment of emails.
- Collaborated effectively with team members, ensuring timely completion of project milestones within budget.

INTERNSHIP

INTERN IQ, Thanjavur – 30 Days

Gained practical experience in front-end and back-end web development tools and technologies. Learned to build responsive web pages and explored core web development concepts, including design principles and architecture. Developed skills in creating efficient and user-friendly websites. Enhanced understanding of the end-to-end web development process.

FANTASY SOLUTION, Trichy – 30 Days

Gained knowledge of big data analysis concepts and real-time data processing techniques. Learned statistical analysis for solving decision-making issues. Enhanced skills in implementing data-driven solutions effectively.

DESFLYER, Thanjavur - 3 Months

Developed expertise in web technologies like HTML, CSS, JavaScript, and Node.js. Worked on creating interactive web applications with responsive and user-friendly designs. Improved understanding of full-stack development and server-side functionalities.
